### **Is it for you?**

Everyone has arguments at some time. Usually these are easily resolved or blow over, but sometimes they just get worse.

Big changes in a family life can cause stress and long running disputes cause pain to the whole family. The problems faced by one person can affect relationships with others.

## **CRANE QUALITY COUNSELLING**

### **What will happen?**

Counsellors do not take sides and will not tell you what to do. They will explore your concerns with you and work with you to resolve the problems.

Before your counselling begins you will have an initial consultation.

Future appointments with the Counsellor will follow normally on a weekly basis.

The Counsellor may suggest that other family members/relations may sometimes come along to some sessions.

### **How can**

### **Crane Quality Counselling help?**

All relationships are unique and have unique problems, but our Counsellors are experienced relationship experts and are specially trained to work with people to help resolve their problems.
